Dear Madam Doyle,

Having been informed that both my letters...

- RL 800 302 657 IE, received on 19th January 2022 at 07:59²

....were ignored, the people I worked with in United Nations advised me to do the following and write...

I enclose the working version³ of the file as collecting the evidence is still going on. These people also advised me to inform them if no one from Trinity College contacts me by 22nd March 2022. If that happens I will have no influence on how circumstances will further develop. I suppose, at certain point in time after completing the final version, that the file will be handed over to international public and uploaded to internet. Dear Madam Doyle, it is important to say that these references on pages 8 - 13 enabled me to reach assistance of the UN people.

Dear Madam Doyle, after this I am not going to write to You or to anyone at Trinity!
However, if you wish you can write to me on [redacted]

Respectfully,

³ Version being prepared for international public will look different due to the rules the law imposes

To: Dr Etain Tannam,
[redacted]
Trinity College Dublin,
Dublin 2.

Dear dr Tannam,

While doing my M.Phil. at the school terrible things have been perpetrated against me. The thorough and detailed legal analysis of the file is being done to establish whether criminal offences⁴ have been committed or not. If the legal analysis finds out that criminal offences have been perpetrated then another legal and detailed analysis of the case/each case will be done as accusing someone of a criminal offence without the evidence (beyond reasonable doubt) is also a criminal offence and I am aware of what that means. Following it some people I worked with in United Nations will prepare the file for international public. Why there? Why, first, “the court of international public?” Apart from consequences (shame on and ruining the reputation of Trinity College) that the verdict of this court would produce I do not know whether, AFTER⁵ surfacing of the file in international public, Oifig Stiúirthóra lonchúiseamh Poiblí will have any choice. Another important point I would love to stress is that the file has been securely deposited at several places abroad and if something happens to me, at any point in time, that will not change anything; the file will immediately be handed over to international public with the alarming question what happened to me. Dear dr Tannam, at the time when You will have read through this letter it will be attached, along with the An Phoist receipt, to the securely deposited overall file. Furthermore, if the foregoing circumstances take place the file and this letter with its An Phoist receipt on the first file page will be permanently available on internet (at the platform immune to influence of any sort). All that will, constantly, testify about what was perpetrated against me at the Trinity College – international public will give the best verdict. One may ask why I am doing all this.....the answer is simple. A while ago several times some people have gone to the extreme lengths to prevent me from reaching my PhD. As the result of their efforts I started collecting evidence and have now everything...literally the exhibits⁶ that CANNOT be denied. Let the world know WHO perpetrated the horrific things!!! Dear dr Tannam, if You find it necessary You can contact me on [redacted]

Respectfully,

This is the receipt when Head of Irish School [REDACTED] received the letter and receipt on page 7 testifies that the Head of Irish School [REDACTED] was aware that Ms Etain Tannam did receive the letter on 6th January 2022 at 07:50

To: Head of Irish School [REDACTED]
Trinity College Dublin,
Dublin 2.

Dear Madam or Sir,

In the enclosed letter You can see the briefly described issue. This is my second and last attempt to reach the solution which would be acceptable for both me and the school. My enclosed letter was ignored and in this way I would love to point out that my wish is not to alarm international public. Having that in mind if You agree with this You can contact me on [REDACTED] however, not later than 4th February 2022. If I do not hear from You the only possibility remaining was pointed to in the enclosed letter. In it, as You can see, I wrote that "...the file and this letter with its An Phoist receipt on the first file page will be permanently available on internet (at the platform immune to influence of any sort)." I would love to add that, if I do not receive any answer, this letter to You and its An Phoist receipt will be placed, along with my first letter to dr Tannam (with the An Phoist evidence of reception), on the overall file front pages. So completed the file will be handed over to international public, at the opportune time (opportune for me) uploaded to internet and stay there permanently.

Dear Madam or Sir, I hope that You will have in mind how serious is this issue.

Respectfully,

To whom it may concern

This is a letter of recommendation for interpreter [REDACTED]. During the period of 31st August 2003 – 20th September 2003 [REDACTED] was employed under my command for a large operation removing illegal weapons from circulation. [REDACTED] was a vital asset to our operation as a lot of information concerning weapons came from local people. [REDACTED] played a vital role in helping us build a rapport with these people. His command of the English language is impressive and at no point did he have any difficulty translating the range of British regional accents he encountered on the operation. During the 3 weeks we lived in field conditions that at time were demanding but [REDACTED] adapted well to this and remained cheerful throughout the operation. It was imperative to us to have an interpreter whom we could rely upon to perform under arduous conditions and not to complain and slow the patrol down. It was for this reason that [REDACTED] as our most reliable interpreter was picked for the most arduous patrols. It is for this reason that I have no hesitation in recommending [REDACTED] to any future employer, as an interpreter for various patrol takings.

Yours Faithfully

Lt Cameron

I came to the [redacted] station in May 01. I have had the opportunity to work with all the language assistants in the station during this time.

I have worked with [redacted] on many occasions and under many different working conditions. I have met many people in my three different years working in the mission here and in [redacted] but I have never met anyone like [redacted]. If we had more people like him who demonstrated what integrity, professionalism and teamwork are all about the UN would be a much better place to work.

On many occasions if I ask him to help me it is never a problem and he is always willing and able to perform his duties and without question or complaint.

When I first arrived here I worked in the human rights office. There were many days when [redacted] came to the office to talk to me and sometimes just to sit and read. All of these times he was trying to improve his English language skills in both written and spoken language. I was happy that he ask me to assist him with this.

I have had many meetings with different people from the community both civilian and professional. There has never been a time when [redacted] was upset or stressed because of what these people were saying or doing. He always treated them with the utmost respect no matter who they were or what there problem was. After one of these meetings here in the station [redacted] ask me if he had performed ok because the people were very upset about a housing problem. I told him he had preformed in an excellent manner and was a credit to the station and the UN.

I felt that it was necessary to convey the above mentioned facts on an additional sheet of paper because there was not enough room in the comments section of the evaluation form.
